

About Us: The Illinois Community College Council on Adult Student Recruitment and Retention (ICCCASRR) was formed in July 2013 to address the unique challenges and need of growing adult student enrollment on community college campuses.

Mission: ICCASRR works to share best practices to increase adult enrollment and improve retention at member institutions, enhance student services, provide networking opportunities, and build stronger relationships with our community college counterparts. The Council provides a partnership with Illinois community colleges to share information to accomplish our respective institutional goals.
